PROFESSIONAL SUMMARY:

DevOps Engineer with 5 years of experience automating infrastructure, implementing CI/CD pipelines, and managing cloud environments. Expert in containerization, infrastructure as code, and monitoring systems. Strong background in Linux system administration and cloud architecture.

TECHNICAL SKILLS:

- Cloud Platforms: AWS, Azure, Google Cloud Platform
- Containerization: Docker, Kubernetes, ECS, EKS
- CI/CD: Jenkins, GitLab CI, GitHub Actions, CircleCI
- Infrastructure as Code: Terraform, CloudFormation, Ansible
- Monitoring: Prometheus, Grafana, CloudWatch, Datadog
- Scripting: Bash, Python, PowerShell
- Version Control: Git, GitHub, GitLab
- Operating Systems: Linux (Ubuntu, RHEL, CentOS), Windows Server

PROFESSIONAL EXPERIENCE:

Senior DevOps Engineer | CloudInfra Solutions | 2021 - Present

- Designed and implemented CI/CD pipelines reducing deployment time by 70%
- Managed Kubernetes clusters running 200+ microservices
- Automated infrastructure provisioning using Terraform
- Implemented monitoring and alerting using Prometheus and Grafana
- Reduced cloud costs by 30% through optimization strategies
- Managed AWS infrastructure (EC2, S3, RDS, Lambda, VPC)
- Implemented security best practices and compliance measures
- Mentored junior engineers and documented processes

DevOps Engineer | TechCorp | 2019 - 2021

- Maintained and optimized CI/CD pipelines using Jenkins
- Deployed applications using Docker containers
- Managed cloud infrastructure on AWS
- Automated routine tasks using Python and Bash scripts
- Monitored system health and performance

EDUCATION:

Bachelor of Science in Information Technology

Texas A&M University | 2019

CERTIFICATIONS:

- AWS Certified DevOps Engineer - Professional (2022)
- Certified Kubernetes Administrator (CKA) (2021)
- Docker Certified Associate (2020)
- Terraform Associate (2020)
